

Cat6 Keystone RJ45 Coupler Datasheet

FOR DATA CENTER, NETWORK ENGINEERING CABLING, ENTERPRISE NETWORK CABLING

Overview

This Strain Relief Boots are necessities that can protect the network cable connectors you make. When the cable is bent, the boots can effectively control the bending amplitude and extend the service life of the network cable. The boot is waterproof, and it can also prevent dust from entering to avoid affecting the use. Its length is about 27mm.

Benefits

- Fit RJ-45 plugs for Cat6a UTP 23AWG patch cable
- Protects cables and connectors from dust and water
- Relieves stress on the wire connection
- Terminations have a professional appearance
- The material is soft plastic, durable and easy to install
